## GAME FEDERATION TOKEN

Game Federation Token (GFT) works within the smartchain (bep20) network. With a decentralized structure and an inflationary and deflationary balance in the network, GFT applies a parameter that ensures multiplicity and intensity of transactions and safe augmentation in users' wallets thanks to its fair tax distribution algorithm for holders, besides providing value enhancement for its users. In this way, users contribute to the ecosystem while both making transactions with GFT token in the network and keeping them in their wallets. In this way, they obtain shares from the production. In the following stages, new algorithms and contracts will be developed for GFT token.

## WHAT IS **GFT** TOKEN?

GFT token is a cryptocurrency used as an instrument of payment on mobile and online games which was developed to organize game tournaments. Moreover, it is a cryptocurrency and payment instrument that is used for generation of an ecosystem with the purposes of developing METAVERSE and NFT projects, games and mobile applications, sale and content sale of these products via GFT token, software development, content generation and modeling for “Internet of Things (IoT)”, artificial intelligence and other systems, besides being used in broadcasting sector and development of broadcasting applications.

# VISION GFT TOKEN

## Its Objective in the Crypto World

As a cryptocurrency with a wide range of usage areas, GFT aims to solve more problems in the sector by reaching out to more users every other day and to meet people's needs, besides facilitating life for them in its own field so as to ensure that they enjoy their time.

## Its Development and Technological Objective

GFT token is constantly improving, working more and strengthening its technical teams every other day to provide better, state of the art products, algorithms and applications.

## Economy and Its Supply-Demand Objective

Thanks to its usage areas and target audience, GFT token aims to secure a continuous value elevation. Besides, it is anticipated that GFT token will become more widespread every other day by presenting the easiest and fastest payment and bonus program in the game sector, which is the target of huge investments responding the needs of this sector.

## ALGORITHM **GFT TOKEN**

When a GFT token user completes a transaction on decentralized exchanges in the Binance smartchain (bep20) with 3% tax deduction (which is the determined rate for each transaction), 1.5% of this deduction of 3% is distributed to all GFT holders' wallets equally, while the other 1.5% is distributed to the marketing and development wallet of GFT token project. An extra rate may be determined for pancake liquidity addition deduction and the current rates are subject to change.

# SUPPLY AND DISTRIBUTION OF **GFT** **TOKEN** (TOKENOMICS)

Total supply : **290.000.000**

Preliminary sales : **110.000.000**

For tournament rewards of game federation : **20.000.000**

# TEAM

## GFT Founder Team

GFT founder team plays an important role in planning, development and implementation of our vision regarding the products and services that we provide. GFT team has a transparency, novelty and autonomy that supports variety among members and that enhances our development.

GFT founder team already has good knowledge of internet technology, online services, "Internet of Things (IoT)" and artificial intelligence systems and also has experience on the issues of blockchain technology, open finance, design and software development.

GFT founder team has a decentralized structure in which responsibilities are distributed among different levels. It is composed of people coming from software engineering, project management, business development, banking and finance backgrounds.

GFT team is supported by a strong consultancy board having experience on internet platforms, end user products, design and software development, cryptocurrencies and blockchain technology. Our team works with professional and academic organizations that are composed of Turkish businesspersons, blockchain academics, financial consultants and entrepreneurs.

GFT founder team,

CEO : Onur Günay

CFO : Güven Çelik

CTO : Mustafa Musab Özkeleş

CMM : Ferdi Yılmaz

## Additional Information and Updates

GFT team will update this report periodically in a way to reflect the technical, commercial and social developments regarding our project. All updates will be announced on our website, social media platforms and telegram channel.

2024 and Its Aftermath

# First Quarter of 2022 (Road Map)

## Preliminary Sales (3 Phases)

3 phases of preliminary sales are planned to be realized in 15-day periods. Current sale prices may be followed from the website [www.gamefederation.org](http://www.gamefederation.org) and social media accounts.

## Token Distribution and Pancakeswap Listing

After preliminary sales, all users will be presented with an option to either transfer the GFT Tokens that they bought to their wallets or participate in the Stake Bonus Program. Moreover, transaction tax will be determined as 15% for the first period of 2 months for pancake swap sales, and then taxes will be lowered gradually. It is aimed to prevent the impact of inflation in this way. As per their preference, the users will be able to make a transfer to the wallet address they entered in the system; on the other hand, those who opt for staking will be able to participate in the Stake Bonus Program.

## Airdrop Task Program Announcement and Airdrop Program

Airdrop program has been planned in a way to ensure earning bonuses by monitoring social media accounts with like and follow tasks for the purpose of promotion and widespread circulation of GFT Token. It is possible to earn extra airdrops by inviting other people via reference management.

## Being Listed in a New Cryptocurrency Exchange

GFT Token purchase and sale transactions will be started in a cryptocurrency exchange.

## A New Mobile Game Will Be Launched

A mobile game is being prepared by the developers of GFT and it is planned to be easily accessible for people in all application stores. Thanks to this game, users will be able to both earn GFT Tokens and purchase content. Moreover, the tournament and rewards will also be organized over these games.

## Second Quarter of 2022 **(Road Map)**

### **Online Chess Tournaments with GFT Bonuses**

Events and tournaments will be organized in online chess platforms. The tournaments are planned to be broadcast live so that everybody can watch. Players who become successful in these tournaments will be provided with rewards. The number of players who will earn rewards may vary according to the scope and number of participants of the tournament.

### **Announcement about GAME ARENA's Architecture**

"GAME ARENA" is an architectural platform where international e-sportspersons and e-sports clubs may participate in events together, organize tournaments and where many events that may attract the audience may be held in practical terms. E-sports competitions, stadium and architectural structure will be prepared in virtual environment and presented to GFT investors and followers.

### **Announcement on GAME FEDERATION's Player License**

Within the body of Game Federation, memberships and licenses will be granted not only to companies and organizations, but also to players. They will be provided with universally valid documents that will allow for their participation in, or preparation of, events as well as for their participation as observers to such activities, and their applications will be accepted in this regard.

# Third Quarter of 2022 (Road Map)

## **Acceptance of Official Memberships to GAME FEDERATION**

## Mandatory Legal Information

None of the features and applications in the "Game Federation Token" and "GFT" as mentioned in the Whitepaper ecosystem (collectively "GFT"), intend to be accepted as an entity with security properties in any area of jurisdiction and they do not constitute an offer of security; nor do they aim to gather demand for security investment. Having technical and operational information about GFT, Whitepaper does not involve investment consultation, nor is it a legal requisition. Whitepaper does not constitute a legally binding contractual or legal commitment in terms of both GFT and GFT team. Any transaction regarding GFT sale or purchase will only be valid after signing of the agreements to be prepared by the GFT team and presentation of other necessary documents ("Final Documents"). In case of contradiction between the Final Documents and Whitepaper, the regulations in the Final Documents will be applicable. Regardless of the area of jurisdiction, no regulatory or administrative authority or government examined or approved GFT's structure or any information mentioned in this Whitepaper. Publication of the Whitepaper may not be regulated by the legislation applicable in the relevant areas of jurisdiction, and it may be inconsistent with the current legislation. Due to the differences in application of cryptocurrency and blockchain technology in areas of jurisdiction and other technological developments, as is the case in all other cryptocurrency applications, also GFT has a high level of risk and uncertainty in legal terms besides its return potential. It is exclusively your responsibility to evaluate these risks and to take the initiative of making investment. Moreover, any part or copy of this hereby Whitepaper should not be carried or transferred to any country where this Whitepaper or GFT sales or distribution is forbidden or restricted. Especially, (i) if you are a citizen or resident of the United States of America ("USA") or a holder of Green Card and if you are not eligible for being an "accredited investor" as per the US

legislation or (ii) if you are a citizen or resident of the People's Republic of China or (iii) if you are a citizen or resident of a country which is subject to US sanctions, you cannot purchase GFT. In the broadest extent allowed by the current legislation, GFT team, its stakeholders, employees, contractors, consultants or subsidiaries do not accept any responsibility regarding the actuality and accuracy of the information contained in the Whitepaper or about the Whitepaper in general, nor do they give any guarantee or make any commitment on the forecasts and projections contained in the Whitepaper. Thus, GFT team has the right to change the information contained in the Whitepaper at any time. This hereby Whitepaper may include statements regarding future GFT activities and projections that have not yet been realized. Such anticipatory statements may differ significantly from the actual results, performances or successes that will appear in the future regarding GFT. In light of the above explanations, you accept that you are exclusively responsible for the losses you endure in relation to Whitepaper, GFT or those including but not limited to loss of revenue or profit, usage or data loss in relation thereto, and that GFT team, stakeholders, employees, contractors, consultants or subsidiaries do not have any responsibility about these demands and losses. This Whitepaper does not constitute any partnership, business relation, license, profit and loss sharing or joint venture relation between GFT team and you. Moreover, it may not be construed as any profit, partnership, business relation or promise for license granted for any person or organization by GFT team. GFT and other GFT products or services do not constitute a capital market or banking tool, share certificate, security or investment agreement. The steps planned in the road map may be applied at earlier and later dates or may be changed in case of need according to the progress and flow balance.

Where are you in the world of the future?
